This article is dedicated to Milton William Cooper for exposing the Illuminati in his book *Behold A Pale Horse*; "Silent Weapons for Quiet Wars" is the first chapter in this book.

"Silent Weapons for Quiet Wars" is a major aspect of the New World Order plans of the Illuminati. It is a comprehensive document that the Illuminati use to initiate members of the global military-intelligence community like the CIA, NSA, MI5, MI6, USAF Intelligence, etc. into the New World Order conspiracy. The Bilderberg Group is a subset of the Illuminati. The Rockefellers and Rothschilds are both mentioned in the document.

SWQW was never intended to be leaked into the public domain. The writer acknowledges in the document itself that this information needs to be secured from public scrutiny, otherwise it would be rightfully recognized as a declaration of war by the Illuminati against the public.

It is empowering for the public to have this information. It reveals the techniques the Illuminati—ultimately under the command of the Jesuit Order—have been using to try to subvert the world population into submission to the New World Order planned for 2030. The main target of the 'Quiet War' has been the American public, because America is the leader of the free world.

The tactics described in SWQW have caused extreme wealth inequality in America. The silent weapons system has manipulated the financial system so that the American public does not understand how severe the situation is:

Here are the most implicating quotes from the document to give a concise overview:

1) Welcome Aboard. This publication marks the 25th anniversary of the Third World War, called the "Quiet War" being conducted using subjective biological warfare, fought with "silent weapons." This book contains an introductory description of this war, its strategies, and its weaponry.

2) It is patently impossible to discuss social engineering or the automation of a society, i.e., the engineering of social automation systems (silent weapons) on a national or worldwide scale without implying extensive objectives of social control and destruction of human life, i.e., slavery and genocide.

3) This manual is in itself an analog declaration of intent. Such a writing must be secured from public scrutiny. Otherwise, it might be recognized as a technically formal declaration of domestic war. Furthermore, whenever any person or group of persons in a position of great power and without full

knowledge and consent of the public, uses such knowledge and methodology for economic conquest—it must be understood that a state of domestic warfare exists between said person or group of persons and the public.

4) In 1954 it was well recognized by those in positions of authority that it was only a matter of time, only a few decades, before the general public would be able to grasp and upset the cradle of power, for the very elements of the new silent-weapon technology were as accessible for a public Utopia as they were for providing a private Utopia.

5) Consequently, in the interest of future world order, peace, and tranquility, it was decided to privately wage a quiet war against the American public with an ultimate objective of permanently shifting the natural and social energy (wealth) of the undisciplined and irresponsible many into the hands of the self-disciplined, responsible, and worthy few.

6) In order to achieve a totally predictable economy, the low-class elements of the society must be brought under total control, i.e., must be housebroken, trained, and assigned a yoke and long-term social duties from a very early age, before they have an opportunity to question the propriety of the matter.

7) Everything that is expected from an ordinary weapon is expected from a silent weapon by its creators, but only in its own manner of functioning. It shoots situations, instead of bullets; propelled by data processing, instead of chemical reaction (explosion); originating from bits of data, instead of grains of gunpowder; from a computer, instead of a gun; operated by a computer programmer, instead of a marksman; under the orders of a banking magnate, instead of a military general. It makes no obvious explosive noises, causes no obvious physical or mental injuries, and does not obviously interfere with anyone's daily social life. Yet it makes an unmistakable "noise," causes unmistakable physical and mental damage, and unmistakably interferes with the daily social life, i.e., unmistakable to a trained observer, one who knows what to look for.

8) The public cannot comprehend this weapon, and therefore cannot believe that they are being attacked and subdued by a weapon. The public might instinctively feel that something is wrong, but because of the technical nature of the silent weapon, they cannot express their feeling in a rational way, or handle the problem with intelligence. Therefore, they do not know how to cry for help, and do not know how to associate with others to defend themselves against it.

9) When a silent weapon is applied gradually, the public adjusts/adapts to its presence and learns to tolerate its encroachment on their lives until the pressure (psychological via economic) becomes too great and they crack up. Therefore, the silent weapon is a type of biological warfare. It attacks the vitality, options, and mobility of the individuals of a society by knowing, understanding, manipulating, and attacking their sources of natural and social energy, and their physical, mental, and emotional strengths and weaknesses.

10) The profit derived from this economic methodology made Mr. Rothschild all the more able to extend his wealth. He found that the public greed would allow currency to be printed by government order beyond the limits (inflation) of backing in precious metal or the production of goods and services (gross national product, GNP).

11) To make a short story of it all, it was discovered that an economy obeyed the same laws as electricity and that all of the mathematical theory and practical and computer know-how developed for the electronic field could be directly applied in the study of economics. This discovery was not openly declared, and its more subtle implications were and are kept a closely guarded secret, for example that in an economic model, human life is measured in dollars, and that the electric spark generated when opening a switch connected to an active inductor is mathematically analogous to the initiation of a war.

12) The social welfare program is nothing more than an open-ended credit balance system which creates a false capital industry to give nonproductive people a roof over their heads and food in their stomachs. This can be useful, however, because the recipients become state property in return for the "gift," a standing army for the elite. For he who pays the piper picks the tune.

13) The same thing is achieved by a government by printing money beyond the limit of the gross national product, an economic process called inflation.

14) When the subject citizens are rendered unable to control their financial affairs, they, of course, become totally enslaved, a source of cheap labor.

15) If a person is spoken to by a T.V. advertiser as if he were a twelve-year-old, then, due to suggestibility, he will, with a certain probability, respond or react to that suggestion with the uncritical response of a twelve-year-old and will reach into his economic reservoir and deliver its energy to buy that product on impulse when he passes it in the store.

16) The process of defining and evaluating these factors and incorporating the economic amplifier into an economic system has been popularly called game theory.

17) Experience has proven that the simplest method of securing a silent weapon and gaining control of the public is to keep the public undisciplined and ignorant of basic systems principles on the one hand, while keeping them confused, disorganized, and distracted with matters of no real importance on the other hand.

18) The general rule is that there is profit in confusion; the more confusion, the more profit. Therefore, the best approach is to create problems and then offer the solutions.

19) Media: Keep the adult public attention diverted away from the real social issues, and captivated by matters of no real importance. Schools: Keep the young public ignorant of real mathematics, real economics, real law, and real history. Entertainment: Keep the public entertainment below a sixth-grade level.

20) A silent weapon system operates upon data obtained from a docile public by legal (but not always lawful) force. Much information is made available to silent weapon systems programmers through the Internal Revenue Service. (See Studies in the Structure of the American Economy for an I.R.S. source list.) This information consists of the enforced delivery of well-organized data contained in federal and state tax forms collected, assembled, and submitted by slave labor provided by taxpayers and employers.

21) But even more hypocritical, they pay taxes to finance a professional association of hit men collectively called politicians, and then complain about corruption in government.

22) Human beings are machines, levers which may be grasped and turned, and there is little real difference between automating a society and automating a shoe factory. These derived values are variable. (It is necessary to use a current Table of Human Values for computer analysis.) These values are given in true measure rather than U.S. dollars, since the latter is unstable, being presently inflated beyond the production of national goods and services so as to give the economy a false kinetic energy ("paper" inductance). The silver value is stable, it being possible to buy the same amount with a gram of silver today as could be bought in 1920. Human value measured in silver units changes slightly due to changes in production technology.

23) This public behavior is surrender born of fear, laziness, and expediency. It is the basis of the welfare state as a strategic weapon, useful against a disgusting public.

The cabal are trying to behaviorally program goddess energy out of women to eliminate noble masculinity. This in turn lowers the noble masculine resistance to the New World Order and encourages males to sell out to the cabal infiltrated system:

24) Some of these categories are ordinary and can be tentatively evaluated in terms of the value of certain jobs for which a known fee exists. Some jobs are harder to value because they are unique to the demands of social subversion, for an extreme example: the value of a mother's instruction to her daughter, causing that daughter to put certain behavioral demands upon a future husband ten or fifteen years hence; thus, by suppressing his resistance to a perversion of a government, making it easier for a banking cartel to buy the State of New York in, say, twenty years.

25) The advertising media, etc., are engaged to see to it that father-to-be is pussy-whipped before or by the time he is married. He is taught that he either conforms to the social notch cut out for him or his sex life will be hobbled and his tender companionship will be zero. He is made to see that women demand security more than logical, principled, or honorable behavior.

26) The female element of human society is ruled by emotion first and logic second. In the battle between logic and imagination, imagination always wins, fantasy prevails, maternal instinct dominates so that the child comes first and the future comes second. A woman with a newborn baby is too starry-eyed to see a wealthy man's cannon fodder or a cheap source of slave labor.

It is essential to recognize that the New World Order could only be successfully implemented with gradual mass consent of the public. When the cabal is exposed enough the righteous public will no longer subconsciously consent to covert cabal despotism and the cabal will fall. It is important to stand up for yourself and not consent to the system in whatever way your intuition and logic guide you:

27) Until such energy dominance is absolutely established, the **consent** of people to labor and let others handle their affairs must be taken into consideration, since failure to do so could cause the people to interfere in the final transfer of energy sources to the control of the elite. It is essential to recognize that at this time, public **consent** is still an essential key to the release of energy in the process of economic amplification. Therefore, **consent** as an energy release mechanism will now be considered.

28) Furthermore, the number of such forms submitted to the I.R.S. is a useful indicator of public **consent**, an important factor in strategic decision making. Other data sources are given in the Short List of Inputs. **Consent** Coefficients—numerical feedback indicating victory status.

29) Psychological basis: When the government is able to collect tax and seize private property without just compensation, it is an indication that the public is ripe for surrender and is **consenting** to enslavement and legal encroachment. A good and easily quantified indicator of harvest time is the number of public citizens who pay income tax despite an obvious lack of reciprocal or honest service from the government.

30) The next step in the process of designing an economic amplifier is discovering the energy sources. The energy sources which support any primitive economic system are, of course, a supply of raw materials, and the **consent** of the people to labor and consequently assume a certain rank, position, level, or class in the social structure; i.e., to provide labor at various levels in the pecking order.

31) If this rise of the lower classes can be postponed long enough, the elite can achieve energy dominance, and labor by **consent** no longer will hold a position of an essential economic energy source.

The following three quotes are the most important:

32) Work: Keep the public busy, busy, busy, with no time to think; back on the farm with the other animals.

33) The quality of education given to the lower class must be of the poorest sort, so that the moat of ignorance isolating the inferior class from the superior class is and remains incomprehensible to the inferior class. With such an initial handicap, even bright lower class individuals have little if any hope of extricating themselves from their assigned lot in life. This form of slavery is essential to maintain some measure of social order, peace, and tranquility for the ruling upper class.

34) Thus, a nation becomes divided into two very distinct parts, a docile sub-nation [great silent majority] and a political sub-nation. The political sub-nation remains attached to the docile sub-nation, tolerates it, and leaches its substance until it grows strong enough to detach itself and then devour its parent.

Part 2: The Titanic and the Federal Reserve

The cabal murdered Benjamin Guggenheim, Isidor Strauss, and John Jacob Astor (three wealthy men who opposed the implementation of the Federal Reserve) by sinking the Titanic in 1912. They then fraudulently (through bribery) passed the Federal Reserve through Congress while Congressional opposition was on Christmas vacation on December 23rd, 1913:

<https://atlanteangardens.blogspot.com/2019/12/a-titanic-story-about-federal-reserve.html>

<https://dailycaller.com/2015/11/19/the-eerie-link-between-the-federal-reserve-and-the-sinking-of-the-titanic/>

The US Federal Reserve is a private bank owned by the cabal:

"The 'privatization' of the U.S. Federal Reserve was ushered into being by a group of Illuminati '**banksters**' with a plan to create a New World Order. Operating outside of the constraints of the U.S. government, the '**privatized**' Federal Reserve controls the US government's central banking system as a private institution. Through the Federal Reserve, the banksters could loan money, shape the world landscape, and become one of the most **powerful** organizations in the world."

Here is a well written article explaining the Federal Reserve:

<https://web.archive.org/web/20250213184244/https://www.facts-are-facts.com/news/the-federal-reserve-is-privately-owned>

Here are quotes from that article (I have omitted the references in these quotes for the sake of simplicity, but I encourage readers to read the article in full and investigate the references if interested):

1) Dear American: Pursuant to your request, I will attempt to clear up questions you have about the Federal Reserve Bank (FED). I spent much time researching the FED and these are the shocking and revealing conclusions.

2) THE FEDERAL RESERVE BANK IS A PRIVATE COMPANY.

Article 1, Section 8 of the Constitution states that Congress shall have the power to coin (create) money and regulate the value thereof. Today however, the FED, which is a privately owned company, controls and profits by printing money through the Treasury, and regulating its value. The FED began with approximately 300 people or banks that became owners (stockholders purchasing stock at \$100 per share - the stock is not publicly traded) in the Federal Reserve Banking System. They make up an international banking cartel of wealth beyond comparison. The FED banking system collects billions of dollars in interest annually and distributes the profits to its shareholders. The Congress illegally gave the FED the right to print money (through the Treasury) at no interest to the FED. The FED creates money from nothing, and loans it back to us through banks, and charges interest on our currency. The FED also buys Government debt with money printed on a printing press and charges U.S. taxpayers interest. Many Congressmen and Presidents say this is fraud.

3) Who actually owns the Federal Reserve Central Banks? The ownership of the 12 Central banks, a very well kept secret, has been revealed:

Rothschild Bank of London
Warburg Bank of Hamburg
Rothschild Bank of Berlin
Lehman Brothers of New York
Lazard Brothers of Paris
Kuhn Loeb Bank of New York
Israel Moses Seif Banks of Italy
Goldman, Sachs of New York
Warburg Bank of Amsterdam
Chase Manhattan Bank of New York

4) After previous attempts to push the Federal Reserve Act through Congress, a group of bankers funded and staffed Woodrow Wilson's campaign for President. He had committed to sign this act. In 1913, a Senator, Nelson Aldrich, maternal grandfather to the Rockefellers, pushed the Federal Reserve Act through Congress just before Christmas when much of Congress was on vacation. When elected, Wilson passed the FED. Later, Wilson remorsefully replied (referring to the FED), "I have unwittingly ruined my country"

5) Presidents Lincoln, Jackson, and Kennedy tried to stop this family of bankers by printing U.S. dollars without charging the taxpayers interest. Today, if the government runs a deficit, the FED prints dollars through the U.S. Treasury, buys the debt, and the dollars are circulated into the economy. In 1992, taxpayers paid the FED banking system \$286 billion in interest on debt the FED purchased by printing money virtually cost free. Forty percent of our personal federal income taxes goes to pay this interest. The FED's books are not open to the public. Congress has yet to audit it.

6) "[The Federal Reserve banks] are private credit monopolies which prey upon the people of the United States for the benefit of themselves and their foreign customers; foreign and domestic speculators and swindlers; the rich and predatory money lenders. This is an era of economic misery and for the reasons that caused that misery, the Federal Reserve Board and the Federal Reserve banks are fully liable."—Rep. Louis T. McFadden

7) In other words, by Congress allowing the constitutionally illegal FED to continue, much of your taxes go to the shareholders of the FED and their bankers. Note: The people who enacted the FED started the IRS, within months of the FED's inception. The FED buys U.S. debt with money they printed from nothing, then charges the U.S. taxpayers interest. The government had to create income tax to pay the interest expense to the FED's shareholders, but the income tax was never legally passed. The FED is illegal, per Article 1, Section 8 of the United States Constitution. Not one state legally ratified the 16th Amendment making income tax legal. Why has Congress allowed the FED to continue? If a Congressperson tries to abolish the FED, the banks fund the Congressperson's opponent in the next election.

8) If you could accurately predict future interest rates, inflation and deflation, you would know when to buy or sell stocks and make a bundle of money. The FED has secret meetings (per Congressional Record) to determine future interest rates and the amount of money to be printed. The Securities Exchange Commission (SEC) by law, stops insiders from profiting by privileged information. Congressional records prove that FED bankers routinely hold secret meetings to profit by manipulating the stock market via interest rates and the amount of money they create. FED bankers also profit greatly from economic disasters like the Depression. The bankers create inflation, sell their stocks before the market crashes, then buy up stocks at cheaper prices. Bankers admitted this to Congress. This violates the law, yet Congress

does not act because these bankers are large political contributors. Thomas Jefferson predicted this scenario if we ever allowed a private bank, like the FED, to create our currency.

9) Congress and the IRS do not have access to the financial records of the FED. Every year Congress introduces legislation to audit the FED, and every year it is defeated. The FED banking system could easily be netting 100s of billions in profit each year. Through "creative accounting" profit can easily be reclassified as expense. Within the first few years, the shareholders of the FED received their initial investment back with no risk. All the income is tax-free, except for property tax, according to the Federal Reserve Act.

10) Congressman Patman re-quoted Thomas Jefferson showing that our founding fathers knew this banking principle very well. "I believe that banking institutions are more dangerous to our liberties than standing armies...." "Already they have raised up a money aristocracy that has set the government at defiance. The issuing power (of money)," he said, "should be taken from the banks and restored to the people to whom it properly belongs." The American Revolution was a struggle to wrest control of wealth from the Bank of England and to restore the centers of power to the People where it "properly belongs." The Constitution is specific about the authority of the People, through their elected officials, to control the money, and thus, the affairs of their government.

11) Ben Franklin said in his autobiography that the inability of the colonists to get the power to issue their own money permanently out of the hands of George III and the international bankers was [one of] the PRIME reason[s] for the Revolutionary War.

12) Thomas Jefferson stated, "If the American people ever allow private banks to control the issue of currency, first by inflation, then by deflation, the banks and corporations that will grow up around them will deprive the people of all property until their children will wake up homeless on the continent their fathers conquered."

13) Dr. Hans F. Sennholz, Chairman of the Department of Economics at Grove City (PA) College stated: "The Federal Reserve System facilitates the government's own inflationary financing in "periods of emergency." It makes easy the inflationary financing of budget deficits and the inflationary refunding of government loans. It stabilizes the government bond market through inflationary methods and manipulates this market to the advantage of the government. It does all this by wrecking the purchasing power of the dollar; by subtly stealing from the people of this country what it thus provides for the government, through a process exactly on par with the coin clipping of ancient kings but much less visible."

14) In a letter to Thomas Jefferson, John Adams wrote: "All the perplexities, confusions, and distresses in America arise, not from defects in the Constitution or confederation, not from want of honor or virtue, as much as from downright ignorance of the nature of coin, credit, and circulation".

15) From the beginning of the United States to present there have been two ways to issue new currency:

The first way is to have the government print the money, debt and interest- free, and circulate it through the economy for use as a medium of exchange. There is no tax levied to pay interest on the currency in circulation because it is debt and interest-free. This is the system Lincoln used with his "greenbacks", a system Kennedy desired, and Jefferson demanded.

The second method is: The Citizens allow the bank to print \$500 billion in currency (cash). The bank pays for printing costs, ink, and paper. The Citizens do not charge the bank any interest for use of the \$500 billion in printed currency. The bank uses the \$500 billion cash to buy a \$500 billion government bond which pays the bankers interest. The bank keeps some of the bonds and sells, for a fee (10%), some of the bonds to the public. The bank can buy back the bonds from the public simply by printing more money. The bankers can create inflation and depressions by manipulating the amount of

currency in circulation. The FED operates exactly like this today. It also prints money (through the U.S. Treasury) and uses this printed money to buy loans from other banks. This money has created our inflation. We give the bank cash interest-free, then they charge us interest on our own currency.

16) When the 1816 charter expired in 1836, Andrew Jackson vetoed its renewal. It was then that he made two famous statements: "The Bank is trying to kill me - but I will kill it!" Later he said "If the American people only understood the rank injustice of our money and banking system - there would be a revolution before morning..."

17) On June 4, 1964, President Kennedy issued Executive Order 11110. This Executive Order called for the issuance of new currency - the United States Note. At the time, \$4,292,893 of this currency was put into circulation. This new currency was to be distributed through the U.S. Treasury and not the Federal Reserve System. Furthermore, it was to be issued debt and interest-free. Upon Kennedy's assassination, this currency was withdrawn from circulation, never to be issued again. The media remained silent on how Kennedy would have eliminated the debt and interest payments, and therefore eliminated the FED. U.S. history proves that issuing debt and interest-free currency allows our economy to prosper, as long as Congress controls the amount of money created.

Part 3: Vanguard and BlackRock

Cabal families basically privately own Vanguard which publicly owns BlackRock (vacuum dynamic). The cabal are causing rapid monetary devaluation with fiat inflation, and then trading over the public's heads.

"the Federal Reserve Act, which was passed into law in 1913. This act gave private bankers control over U.S. money, with the ability to create money out of thin air and lend it to the government at interest.

"BlackRock and Vanguard: The Modern Extensions of the Rothschild Banking Empire.

While the Rothschild name is no longer publicly attached to major financial institutions, their wealth and influence continue through firms like BlackRock and Vanguard. BlackRock manages over \$10 trillion in assets, influencing almost every major industry. Vanguard is structured as a 'mutual' company, meaning its true ownership is obscured—but its largest shareholders are Rothschild-linked banking entities.

"How BlackRock and Vanguard Control the World's Economy

BlackRock and Vanguard own controlling shares in nearly every major corporation, including:

- Apple, Google, Microsoft, Facebook, Amazon
- Pfizer, Johnson & Johnson (Big Pharma)
- Lockheed Martin, Boeing (Defense & War Profiteering)
- JPMorgan Chase, Goldman Sachs (Banking and Finance)
- CNN, Fox News, The New York Times (Media Manipulation)

By controlling both media and finance, these firms ensure that the public remains unaware of their influence."

A BlackRock recruiter got caught admitting BlackRock buys US politicians:

"First there's the Senators. These guys are f***ing cheap. You got 10 grand? You can buy a Senator."

"It's not who the President is. It's who's controlling the wallet of the President."

"The hedge funds, BlackRock, the banks—these guys run the world."
